

Lead Retrieval App Instructions

Download from Google Play

Search "GTR Leads" or scan to download

Activate

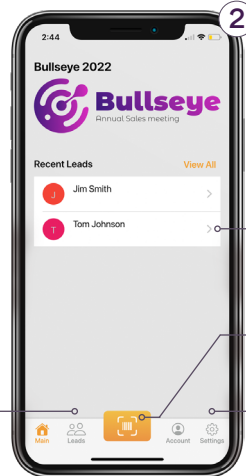

1
Enter your activation code to sign in

View, edit, sort, or delete previously scanned leads

Activate GTR Leads by entering your assigned activation code.

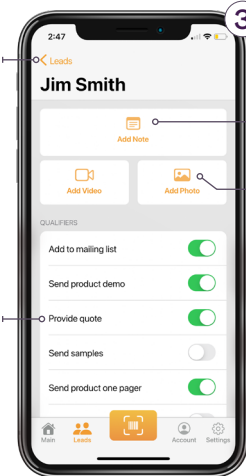

Scan

2
Edit scanned leads
Scan new lead
View settings

Scan badges by using the devices front or back camera. Hold camera steady on barcode/QR Code to capture lead. Your recently scanned leads will appear on this screen.

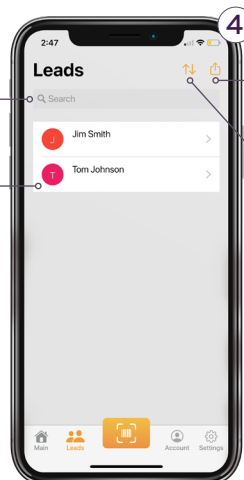

Qualify

3
Return to main screen
Add notes
If enabled, add a photo, video or audio note
Select qualifiers
Provide quote
Send samples
Send product one pager

Once a badge/QR Code is scanned, you may add qualifiers, photos and notes to the lead.

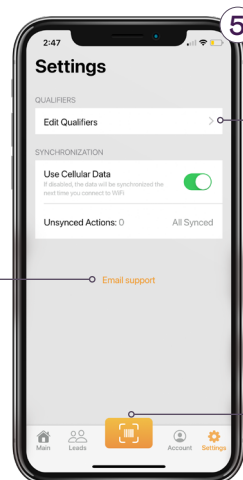

View Leads

4
Search scanned leads
Export scanned leads
Sort scanned leads by time, name or company
Edit scanned leads

Access all your leads by selecting the leads icon at the bottom of the screen. View, search, sort and remove scanned leads. Clicking on a lead will take you to a detailed view where you can select qualifiers and add notes (see step 3).

Settings

5
Add or remove qualifiers on this device
Email for support
Scan new lead

Access settings by selecting gear icon at the bottom of the screen.

Edit qualifiers and email support.
