Lead Retrieval App Instructions

Are you ready to start streamlining your lead retrieval capabilities with Registration Tech? Download the A2Z Leads app today to get started!

Enter your activation code to sign in

1 Activate

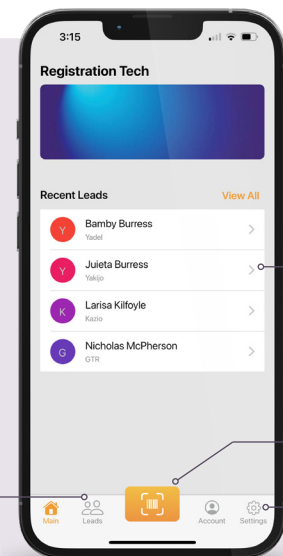

Activate A2Z Leads by entering your assigned activation code.

Search "A2Z Leads" in the App Store or Google Play Store to download.

2 Scan

Scan badges by using the devices front or back camera. Hold camera steady on barcode/QR Code to capture lead. Your recently scanned leads will appear on this screen.

Edit scanned leads

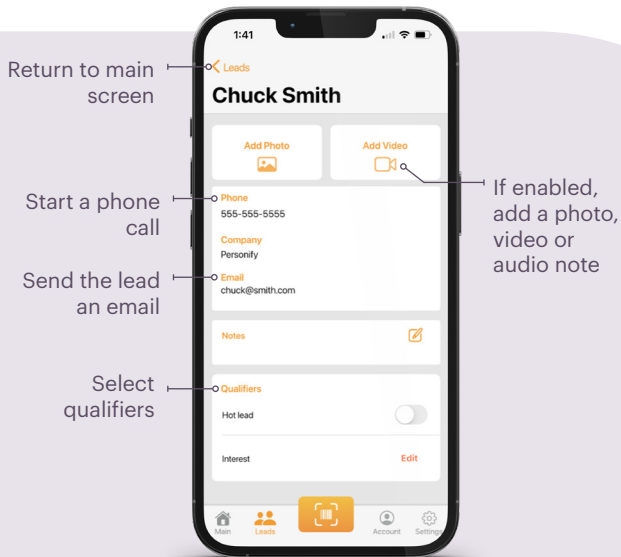

View, edit, sort, or delete previously scanned leads

Scan new lead

Lead Retrieval App Instructions

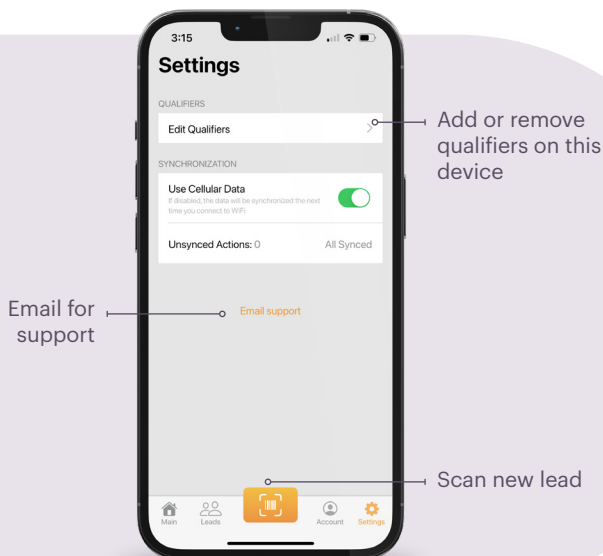

3 Qualify

Once a badge/QR Code is scanned, you may add qualifiers, photos and notes to the lead. Plus, instantly start a phone call or email the lead with one click.

4 View Leads

Access all your leads by selecting the leads icon at the bottom of the screen. View, search, sort and remove scanned leads. Clicking on a lead will take you to a detailed view where you can select qualifiers and add notes (see step 3).

5 Settings

Access settings by selecting gear icon at the bottom of the screen.

Edit qualifiers and email support.
